Donald Savery: I thought I had a file on him but I do not. I am certain this is not the first report I've seen, but it is the first to give his age and racism. (And what a characterization of Bringuier, who considers a member of the White Citizens' Council a Commie!) There is something unSavery in a man with these racist beliefs participating in "peace marches" and the Council for Peaceful Alternatives. Note also this report gives no indication of why he was interviewed. A Quaker and a racist? Well, there is always Nixon, I guess. However, if there is anything else on him I'd like to see it. We do know that LHO tried to frame the Council for Peaceful Alternatives (and Weissman is a copout, having made some kind of deal that satisfies him). I wish I could remember where I heard or saw what about him. I do think it is connected with Bringuier.
